CONDUCTED CLASS WISE SEMINAR

Introduction: Classroom seminar can be defined as the term used by the educators for describing the ways of techniques and skills, which is used to keep the students orderly, focused, organized, attentive and on task. and evaluate the students activities by assigning different topic to students, where students should collect the assigned materials after reading on time, make notes about it, complete the assigned homework activities on time, identify additional resources, will actively pursue learning activities outside the classroom so that the in-class discussion time is used to its full potential. In Class Seminars participated all students studying in the same course. They are normally directed by a tutor in a seminar class room. But whether you're presenting or not, you'll still need to do some work before and after the seminar to make the most out of them. Seminar can mean a course with different speakers at each class. It can also mean a small, discussion-based course. In a seminar course, students do assigned reading and then, under your guidance and direction, handle aloud with the ideas they've read. Seminar may be for the purpose of education, such as a lecture, where the participants engage in the discussion of an academic subject for the aim of gaining a better insight into the subject.

Importance of class Seminar: Is to interact with peer group which help to gain valuable knowledge at class seminars. Some seminars teach subjects geared to personal growth, such as learning to be more assertive, to better manage stress or to choose the right sort of investments. It is also help to learning of specific techniques and topics by teaching peer groups. It is a form of a class organization that utilizes a scientific approach for the analysis of a problem chosen for discussion.

Purpose of the class Seminar: Class seminar focus on a particular subject area in a related to their course. Students are expected to participate regularly in class seminars, including giving presentations and participating in discussions. Which help them to improve their presentation skills? By practicing the following tips. Practice; develop Enthusiasm, Attend Other Presentations.

GROUP DISCUSSION

Conducted group Discussion for All BA.II, IVth and Vth semester on “**DR. B. R. AMBEDKAR LIFE AND CONTRIBUTION TO SOCIETY**”

In order to reach all learners, teachers use differentiated instruction **strategies**. These techniques are meant to accommodate each individual student's learning style, readiness, and interest, and they involve using a variety of different instructional methods, such as flexible **grouping**. A **classroom discussion** is a sustained exchange between and among teachers and their students with the purpose of developing students' capabilities or skills and expanding students' understanding both shared and individual of a specific concept or instructional goal.

Encouraging student participation

1. Create an inclusive discussion environment.
2. Allow students to ask questions or share ideas in class anonymously.

In classroom discussion provide the topic in advance. Give students a chance to think about how they will respond. Told them to your ideas are important, and you know your stuff, but the goal of student discussions isn't to demonstrate that it's to spotlight their ideas and increase their knowledge. Classroom discussions are characterized by. A classroom has been grouped when the one large group of students assigned to that classroom is divided into a set of smaller groups for some portion of the time they are in the classroom. Discussion methods are a variety of forums for open-ended, collaborative exchange of ideas among a teacher and students or among students for the purpose of furthering students thinking, learning, problem solving, understanding, or literary appreciation.
