

STRATEGIC PLAN FOR SAMPIGE WOMEN CELL

Every years all women cell committee member and Staff meet to discuss and plan the academic years activities for the women cell. In an effort to remain transparent with our students and community special *strategy* of '*Women's Component Plan*' to ensure that not less *.Women's Cell* to monitor the implementation of *gender sensitization awareness program, women empowerment programme by celebration of international womens day in our college*. The launch of the first Women cell Strategic Plan covering the period 2017 – 2021 is an important milestone in the life of the emerging institution that was established in August, 2005 and commenced operations in 2008. As a pioneer board, we are in an desirable position of providing a shared vision and arranging a present foundation for an institution that will play an instrumental and effective role in women empowerment and gender equality. The strategic plan provides the clear path that we will pursue towards this bigger noble goal. The formulation of this plan involved a broad cross-section of stakeholders both from within the college women cell.

The strategic plan for the period sets out very clear goals and strategies that will be implemented in execution of the Fund's legal mandates. We are conscious of the fact that a healthy container is critical in getting to ones destination. Institutional strengthening of the Fund in terms of legal independence, staffing and automation are a priority. The Strategic Objectives of the plan have six key outcomes. The fulfillment of these strategic objectives depends on the achievement of these outcomes. The strategic plan has defined outcomes and outputs. These outputs constitute the results the various stakeholders will be accountable for over the next 5years. The fulfillment of the program outcomes depends on the achievement of these outputs.

The outcomes and outputs determine the programmatic areas in which progress can be expected and measured. Progress in these areas can be measured by selecting appropriate and relevant indicators. SMART characteristics of indicators (Specific, Measurable, Attainable, Relevant, and Timely) were considered in terms of defining the indicators. For tracking progress in outcome and output performance targets were set. It is an essential and binding among stakeholders on results to be achieved by the program over the 5years term. It is A statement of intended performance, to be reported annually (particularly for output level indicators), at midter mandate the end of the program depending on the type of indicator to be collected. Revision of targets during the course of the program is possible only in exceptional circumstances such as : .The women cell will conduct quarterly supportive supervision visits in order to over see performance and to transfer knowledge and skills. This will enable The women cell to assess and provide feedback and provide specific recommendations for improvement.

Keynote speech:Delivered by **Dr. Manikamma N.Sultapur Asst. Professor** and Co-ordinator of Sampige women Cell. While devliveing key note speech she has focused on the importance of celebration of International womens day and gender sensitization with the theme of International womens day 2019 which will take place on 8th march , is “Think equal, build smart, innovative for change” the theme will focus on innovatie ways in which we can advance gender equality and the empowerment of women paritcularly in the areas of social protection systems, access of public service and achievement of the ambitious sustainable development goals.innovations that shapes our future.

Guest speech **Dr. C.v. Kalaburgi Associate Professor** delivered speech focus on issue of women and statistics of male female ratio yearwise , and child marriage problems and also inspires student to protect gender sensitization in society.

Chief Guest speech **Smt. Shivamangala Kashinth Hunaje** delivered speech focus on every part of women life needs family support to achieve their goal and become successful in life , so she has appeal and motivates students to treat equally whether female and male don't discriminate any platform in home of colleg or

society, because all are after all human beings.

Student advisor shri. Kashinth Hunaje delivered speech focus on Gender equality which reveals every human being needs cooperation to each other , they have thought that Gender equality is achieved when women and men enjoy the same rights and opportunities across all sectors of society, including economic participation and decision-making, and when the different behaviours, objectives and needs of women and men are equally valued and favoured.

Presidential remarks Delivered by Dr. S. H. Hosamani Principal where they had encouraged students to change their behaviour , attitude towards *Gender sensitization* which the people of all genders are taught to respect everyone irrespective of gender while acknowledging the differences. Regarding women are work more for family and she has the capacity to handle multi tasks at a time ,but when she is students she get less time for studies still get more marks than an average male , are as intelligent as male. I think women are more efficient than male. Still in many countries there is gender inequality and discrimination, I think, as time goes on, inequality will be increasingly reduced so I think *women are more efficient than male in all field personal and professionals.*
